DIFFA's Dining by Design 2008

On November 19 and 20, the San Francisco Design Center was home to the 8th annual Dining By Design, presented by DIFFA: Design Industries Foundation Fighting AIDS. With more than 30 designers showcasing their talents with one-of-a-kind table installations, the event was kicked off by the Table Hop & Taste cocktail party, followed by a gala dinner the next evening. All profits from the SF portion of this nationally touring event will be distributed through DIFFA to the Positive Health Program at San Francisco General Hospital, the city's largest HIV/AIDS clinic. National sponsors of the tour include Hewlett-Packard, Benjamin Moore, Beringer wine and Stolichnaya vodka.
