## Newsletter

On November 19th and 20th we celebrated the 7th year of **DIFFA's Dining by Design 2008** at the Design Center. I am so proud to be part of our dedicated steering committee who put together another successful and absolutely magical event and raised a generous amount of money to benefit the Positive Health Program, a core program of the AIDS Research Institute at UCSF. Congratulations to all the talented designers who once again created some of the most elegant, innovative and inspired dining environments.
