## Dining by Design Boston, v.2

Dining by Design makes a return appearance in Boston this week. Fantastic table displays await during this three day event, proceeds of which go to support the Community Research Initiative of New England. Click [here](#) for more information.

Here is a photo I took at last years' event. This electric space was designed by Billy Evers of Rafanelli Events Management and Marc Hall of Winston Flowers and was sponsored by Ricardo H. Rodriguez and Michael Kelley. This image also appeared in Elle Decor magazine a couple of months ago as part of a spread on the 2007 Boston event!
