And of course, the DIFFA Event!

This was one of the best events that I've attended in Kansas City. All of the 25+ tables were unique and inspiring. The food was divine, as were the martinis and wine (Saturday was a rough morning) and it's for a great cause. PLEASE look up DIFFA and see if this great event is coming to your city. I promise that you will love it!!!! George and I have already started planning a table for next year.

This Tiffany inspired room was my favorite. Perfect for a bridal luncheon.

This was my 2nd favorite. The shades of lavender used were fresh and beautiful.

The glass centerpiece details were incredible.

How fabulous for a Sweet Sixteen or girly baby shower?

Though the real grass table runner was a festive touch. The wood place mats were as well. A perfect backdrop for a summer bar-b-que.

And some tables were out of this world, ha:)
